# Technical Information 408

## Gravity sorter for caps ZBV-SKS

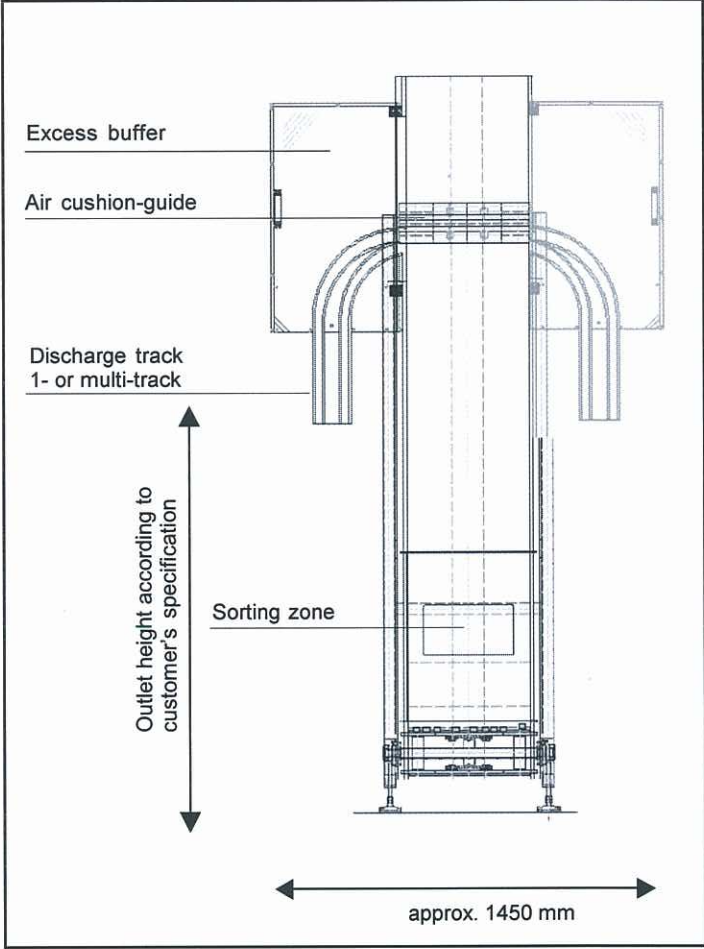

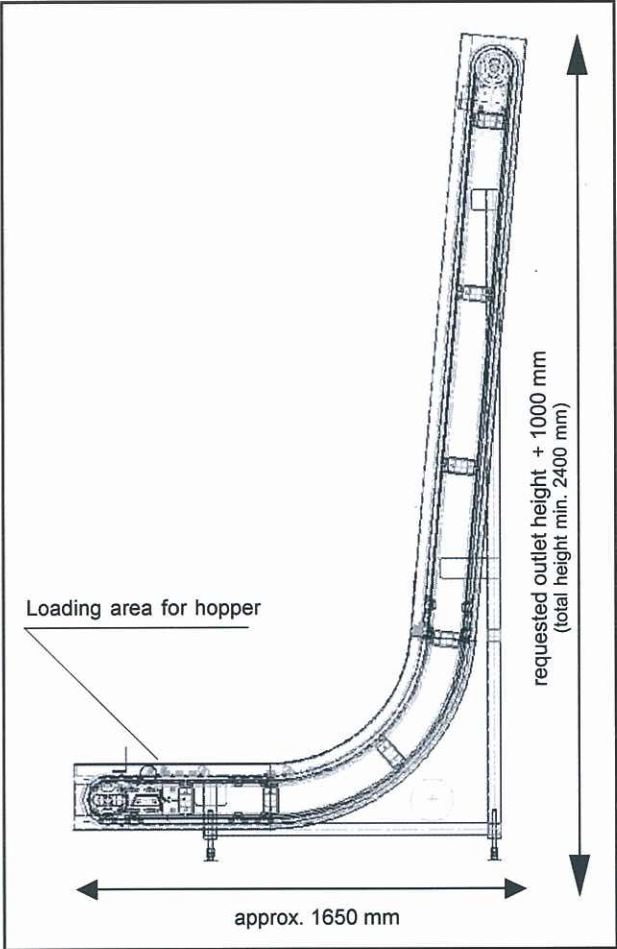

### Application benefits:

- Extremely careful feeding of the parts (no product wear)
- High output rate: > 2000 parts/min.
- 100%-correct-orientated sorting
- Low noise level: < 72 db(A)
- Sorting without need of compressed-air

### Fields of application:

- Filling up technique
- Inspection technique
- Metal industry
- Plastic industry
- Printing technique

# ZBV - SKS

**Output rate:**

Two-track > 2000 parts/min. (the output rate is dependent on the focal point of the parts as well as the no. of discharge tracks).
